

WaxJet - 510

Large Size | High Precision | Wax 3D printer

WaxJet 510 jets wax layer by layer for high-precision printing, achieving smooth wax molds with details fully restored. The optimized technology minimizes wax waste, enhancing printing efficiency and reducing costs. It is a reliable and efficient solution for crafting K-Gold wax molds.

- Fine- Precision
- 8 Micron printing in XY revolution
- Special Wax (Red Colour)
- On-Demand Production

PRODUCT SPECIFICATIONS

<p>TECHNOLOGY MJP</p>	<p>RESOLUTION (DPI) 2900 x 2900 x 1700</p>
<p>BUILD VOLUME 289 x 208 x 100 mm</p>	<p>LAYER THICKNESS 15 um</p>
<p>DIMENSIONAL ACCURACY ± 0.04 mm / 20 mm</p>	<p>NO. OF PRINTHEADS 1</p>
<p>PRODUCTION CAPACITY 120 g per day</p>
